

BAR SILVER IS RISING RAPIDLY

Reaches Highest Price in Almost a Decade; Silver Mines Will Respond.

New York, April 28.—Bar silver was quoted at 51 3/4 cents an ounce today, the highest price in almost a decade. A month ago the quotation was 49 3/4, early in the year 48, and just before the war 52 1/4 was a fair quotation.

Withdrawal of gold as a medium of circulation from practically all the markets of the world except this country, accounts almost fully for the sensational advance in silver. Incidentally the Mexican disturbances have served materially to curtail the supply.

In recent months there have been heavy shipments of silver from this country to England, France and Russia, while the demand from China and India has been almost unprecedented. The United States government also is in the market for large quantities of the metal.

Denver, Colo., April 28.—The advance of bar silver to 51 3/4 cents an ounce will have the effect, say local mining men, of releasing a flood of this metal from the mines of Colorado. Mines in Aspen, Leadville, Silt, Breckenridge, Durango, Boulder, Georgetown, Rico and elsewhere in Colorado that have been closed down for from ten to 20 years, were reopened during the winter and many are now working double shifts in the expectation of even still higher prices.

SHERIFF POSSE KILLS OUTLAWS

Muskogee, Okla., April 28.—A posse headed by sheriff Barger, of Muskogee county, today killed Joe and Dave Smith, outlaws in the hills near Gore, Oklahoma. The Smiths fired with riot guns stolen from this county a year ago when Dave Smith escaped jail. They carried safe-blowing paraphernalia when killed. The slain men were sons of Yarnou Smith, a notorious bandit of territorial days.

ORTEL FILM SERVICE

This photograph shows a large number of pack mules en route to the United States troops in Mexico, with supplies. The mules will be retained at the front to take the places of animals killed or diseased in earlier engagements. Because of the failure of the Carranza government to permit the United States to use the Mexican railways, mule transports are rushing supplies hundreds of miles.

GERMANY PLANS ARMY-NAVY DASH

French Critic Thinks Enemy Is About to Make Desperate Bid for Victory.

Paris, France, April 28.—That the German military and naval staffs are preparing a great offensive both against the combined Anglo-French army on the continent and the fleets on the coast of Great Britain in a last desperate bid for victory, is the conclusion arrived at by Maj. de Civrieux, the military critic of the Matin after a close study of the military factors of the situation.

The simultaneous continuance of zeppelin raids, the risky North sea naval expedition and the unexpected outbreak in Dublin are not mere coincidences. At the same time, he points out, the Swiss frontier has been closed for three weeks, while on the French front in Lorraine and in the Vosages, the Germans are renewing demonstrations in the hope of dividing the attention of the French staff.

There is one principle that the German staff will never abandon, Maj. Civrieux concludes, unless under absolute necessity, and that is the retention of the strategic initiative. It is aware of the allies' common designs and is exerting all its energies to forestall them.

EIGHT GERMANS ARE INDICTED

New York, April 28.—The federal grand jury returned an indictment today against the eight Germans recently arrested on the charge of engaging in a conspiracy to place incendiary bombs on ships carrying munitions for the entente allies, and against Dr. Walter T. Scheele, president of the New Jersey Agricultural Chemical company, the alleged leader of the conspiracy, who has not yet been arrested.

SAILOR MENACES SHIP; ARRESTED

New York, April 28.—The patrol laden bark Soesperveen will sail for England without Fritz Steiner, a member of the crew, who was arrested just as the vessel was about to weigh anchor today, the federal authorities entertaining a complaint by the captain that Steiner had threatened to burn or blow up the ship during the voyage.

Steiner, who claimed he lived in Switzerland, demanded to be taken ashore upon learning the vessel was bound for England, according to Capt. Eschel Blomquist, and when the request was refused, swore the ship would never reach its destination. Steiner had a Swiss passport.

BRITTON WOULD PENALIZE ROCHE

St. Louis, Mo., April 28.—President Britton, of the St. Louis Nationals, today protested to president Farrell, of the National Association of Baseball Clubs, against Jack Roche, catcher, playing with the Portland club of the Pacific Coast league.

Britton has suspended Roche. Roche, a member of the St. Louis Nationals, was placed by Britton with the Tacoma club of the Northwestern league under an optional agreement. Yesterday Britton learned that Roche has been playing with Portland ever since the Pacific coast season opened. It was said that all games won by Portland while Roche was in the lineup and since his suspension by Britton may be challenged.
